web development
- Database
- Signal processing

GUILLAUME FRADET

Engineering student in ESILV (Paris) - IT, Big Data and connected objects
Looking for an internship of 4 to 5 months between April and September 2018

RESUME

Student at ESILV, engineering school in Paris - La Defense, I am studying the sciences of new technologies that have always fascinated me, and I participate to various projects like the French Cup of Robotics in 2016 and 2017.

Visit my website for further information: guillaumefrd.github.io
(detailed resume and portfolio)

EDUCATION

2017-2018 4th YEAR AT ESILV, PARIS

ESILV is a generalist and digital engineering school. Located in the "Pole Universitaire Leonard de Vinci", students in ESILV already work with managers from EMLV (Business school) and designers from IIM (school of Internet and multimedia).

COMMUNICATION MANAGER of DaVinciBot (robotics association)

2017 Fall Semester LOUISIANA TECH UNIVERSITY (USA)

Thanks to an exchange program, I had the opportunity to study in this american university for one semester.

Major: Computer Science

2014 SCIENTIFIC BACCALAUREAT, WITH HIGH HONOURS

Saint Dominique High School, Mortefontaine

EXPERIENCE

June-July 2017 DEVELOPER INTERNSHIP - FishFrierder, Paris (start-up)

Mission: automate data recovery and process partner data to adapt and insert them into the application database. The partner data were either in Excel sheets or in web pages. I extracted the data using web scraping techniques.

Tech used: Node.js, JavaScript, SQL, JSON

Environment: Mac OS

June-Sept 2016 SALES ASSISTANT - MARMON SPORTS, Aubervilliers

July 2015 OPERATOR - Parc Asterix
